

Health Advice

Why get the COVID-19 vaccine?

COVID-19 is a **sickness** that is in all parts of PNG

The COVID-19 vaccine has been **developed by leading scientists** from England

The vaccine **protects you against COVID-19** and slows the spread of the virus to protect your family

The vaccine has been **safely given to more than 11 million people**

It does **not contain** any harmful ingredients

PNG is getting the **same vaccine as Australians**

Our leaders including the Honourable Prime Minister Marape are **already getting vaccinated...** this is a safe procedure

Getting the vaccination is the best way of **keeping you and your family safe**

There are lots of **misleading rumours** which are discouraging people from getting vaccinated. **Don't be misled by these false claims.** Think of your family and neighbours.
